

## BMP 016 - Limit Significant Materials Inventory

Description of Potential Pollutant and Source: Reducing the amount of significant materials reduces the potential for the material to enter the storm drain system.

Description of BMP: Inventory control will be used to prevent excess storage of unnecessary or infrequently used significant materials.

Application Guidance: This BMP will be used in all cases where significant materials are stored.

Training: Procurement officers and warehouse managers will be trained to accurately estimate delivery schedules and user's needs.

Effectiveness and Cost: This is a moderately effective, low-cost BMP.

Limitations: None
